

# ZIYAO ZENG

(+86) 173 2652 1629 | zengzy@shanghaitech.edu.cn

## SUMMARY

Sophomore of ShanghaiTech University majoring in Computer Science

Innovative AI-Scientist with Enterprise, Nice Group Worker with Leadership, Self-Motivated Fast Learner

Research Interests include Computer Vision, Bioinformatics, Machine Learning, Deep Learning

## EDUCATION

**ShanghaiTech University**

**Sept. 2019 - Present**

**B.Eng. in Computer Science, Major**

- **Selected Courses:** (\*: graduate-level) Deep Learning\* (A), Probability & Statistics (A), Python Programming (A), Digital Image Processing (A), Computer Architecture (A)

**Innovation and Entrepreneurship, Minor**

- **Selected Courses:** Negotiation (A), Strategy Management (A), Intro. to Entrepreneurship (Opportunity: A, Marketing: A, Finance: A), Intro. to Economics (A)

- **Entrepreneurial Mindshift Program**

**Babson College | March 8-15, 2021**

- A two-week online program from Babson College about entrepreneurship

**Fuzhou NO.1 High School**

**Sept. 2016 - June 2019**

## RESEARCH EXPERIENCES

**GRASP Lab**

**University of Pennsylvania**

Research Assistant | Supervisor: Prof. Jianbo Shi

April 2021 - Present

- **Monocular 3D Object Detection** | Regress 3D bounding box for object using only monocular RGB image | Collaborator: Xinbeng Gao, Renrui Zhang

**PLUS Lab**

**ShanghaiTech University**

Research Assistant | Supervisor: Prof. Xuming He

July 2020 - Present

- **Mix-data Anomaly Detection and Segmentation** | Develop a cascaded auto-encoder with metric learning to perform mix-data anomaly detection and segmentation | Collaborator: Bing Jiang
- **Noisy Labels Classification** | Design a model using Trinet and early stopping trying to seek common while shelving difference to deal with noisy data classification | Collaborator: Zhitong Gao
- **Uncertainty Estimation** | Focus on uncertainty estimation especially distinguish between epistemic and aleatoric uncertainty using a single model | Collaborator: Zhitong Gao

**Virtual Reality and Visual Computing Center**

**ShanghaiTech University**

Research Assistant | Supervisor: Prof. Jingyi Yu

Jan. 2021 - March 2021

- **6D Pose Estimation using NeRF** | Modifying NeRF with light disentanglement and rotation matrix optimization to estimate object's 6D pose | Collaborator: Ge Zhang & Peihao Wang
- **Adversarial Training in NeRF** | Adapt NeRF to training under highly noisy scenario by applying method of learning with noisy label | Collaborator: Ge Zhang & Peihao Wang

**State Key Laboratory of Drug Research      Shanghai Institute of Materia Medica, CAS**

Research Assistant | Supervisor: Prof. Minyue Zheng & Prof. Hualiang Jiang      Jan. 2021 – May 2021

- **miRNA Target Matching** | Design a deep learning model to match miRNA drug with its target | Collaborator: Xiaolong Wu

**Laboratory of Bioinformatics and Functional Genomics      ShanghaiTech University**

Research Assistant | Supervisor: Prof. Liye Zhang      Jan. 2021 – March 2021

- **Enhancer Prediction** | Design a deep learning model to predict enhancer using genetic information | Collaborator: Chenyue Guo

**Laboratory of Cancer Biology      ShanghaiTech University**

Research Assistant | Supervisor: Prof. Xuesong Liu      Nov. 2020 - Jan. 2021

- **HRD Prediction** | Develop a deep learning model to predict HRD symptom based on information of genetic copy number signature | Collaborators: Huiming Li

**Foot Research Laboratory      Fujian Normal University**

Research Assistant | Supervisor: Prof. Yifang Fan      July 2017 - Sept. 2017

- **Adolescent Obesity's Effect to arches of foot** | Conduct a research capturing pressure of feet to study effects of adolescent obesity to arches of foot

**WORKING EXPERIENCES**

**UISEE Technology      Shanghai, China**

Algorithm Engineer of Self-Driving Cars      July 2021 - Aug. 2021

- Develop algorithm for monocular 3D object detection

**Shanghai Advanced Research Institute, CAS      Shanghai, China**

Lecturer in Popularization of Science | Program: "Future stars of science"      Aug. 2020 - June 2021

- Teaching advanced scientific topic to public, including deep learning and computer vision

**TUTORING EXPERIENCE**

Freshman Mentor | Instructed by Prof. Rui Fan      Fall 2020 - Present

**Voluntary**

ShanghaiTech Campus Opening Day      2021

Greenpeace      2020 - Present

WWF-China      2020 - Present

ShanghaiTech New Students' Welcoming Activity      2020

International Symposium of Attitude Research, Innovation, and Management (ISARIM 2019)      2019

**SKILLS**

Python, C/C++, PyTorch, OpenCV, Matplotlib, Numpy, Sklearn, Anaconda, Tmux, OpenMP

Bilingual (Chinese/English: IELTS-6.5, CET6-607)
